Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Continuation Sheet (PTOL-303)

Continuation of 2. NOTE: The new limitation proposed for claim 1, "which is differentially expressed in cancer", clearly calls for further consideration, as does the limitation for claim 15, "an oligonucleotide". Regarding the former proposed amendment, differential expression in cancer is not considered to be a "function" as this word is used in the previous Office action. Thus, it is submitted that such an amendment, even if entered, would not overcome the written description rejection, as such language still allows for variants which have significantly different functions.
